1. SERVICE CHARTER

The Service Charter, was introduced by the Prime Ministerial directive of January, 27, 1995 and made binding with the law 273/95, represents a fundamental tool to guarantee the conservation and the active participation of the citizen to the healthcare improvement, to the right to information and to maintenance of quality standards; this tool represents a significant change from administrative culture to a corporate one and the ability to activate measuring mechanism of the service and the achieving of the target set.

The Service Charter represents the deal between the provider for a service and the citizen, it takes the function of a tool to improve the quality of the offered service and of the communication, so it defines the targets and the commitments taken to reach the results by the authority, the reference standards, the way to measure the performances and the satisfaction level of the user.

On this basis, The Sabina Medica is always aware of the citizens needs and it looks towards the perspective to provide services which meet the real needs through this Service Charter.

The Service Charter is a transparency requirement towards the citizens, a clarity guarantee about what a center can offer and a precise information about the whole organization.

The revision to this documento is drafted by the company named S.M. by Egidi Sara & C. S.a.s. holder of the Polyspecialistic and Dentistry Medical Clinic, device of Ambulatory Surgery and General Analysis Laboratory, named "Sabina Medica", in cooperation with the external consultancy company "M & F Consulenze S.r.l.", in order to update them about the changes occurred from the moment of the first draft (Rev 00 of 20/06/2016).

This document represents the summary and the picture of what we can offer nowadays, but our commitment is to keep operating in order to reach a higher level of quality of our services. The Service Charter is a dynamic tool and is under a permanent status of verification and updating.

2. THE HEALTH CENTER

The Health Center Sabina Medica is a need to provide an easy access service but with a very high quality level for the patients, for the facility size and for the carers involved.

The focus is on the user and this means that the provided services reach high standards and there is the possibility to optimise the reception creating a relationship with every single user that meet and talk to the carers and this also gives the opportunity to create a direct relationship with the doctors working in the facility.

This helps the Management to improve his service, offering to the users a small center in contrast with the big realities of the country where it is possible to meet and talk to the carers, where it is possible to feel in the spotlight and where everybody can find answers and a quality service.

3. INFORMATION ABOUT THE STRUCTURE

DENTISTRY AND SPECIALISTIC EXAMINATIONS AND MEDICAL SERVICE

For the execution of medical and dentistry examination and services, the reception personnel is available from Monday to Friday, from 8:00 a.m. to 8:00 p.m and on Saturday from 8:00 a.m to 1 p.m. to set an appointment. When a child is concerned one of the parents is required. The reception will immediately communicate the date and time available for the appointment. After the confirmation the reception will release a reminder with all the details about the date and time and with the possible information about the preparation of the medical service.

It is possible to book an appointment by telephone in the same days and times as above, by mail or by Facebook.

The average waiting time for an appointment is of 15 days (maximum).

In case of need it is possible to cancel an appointment, the patient will have to communicate it at least 48 hours before the scheduled date.

The results can be picked up the same day and in the same place of the execution of the medical examination or the diagnostic examination, except for the electrocardiogram whose report will be delivered after 3 working days and for the hystologic / cytological examination whose report will be delivered after 7 working days.

The results can be taken directly from the user in the facility, the user can also send someone else, with a proper authorisation, in compliance with applicable legislation concerning privacy and that will provide a mandate signed by the subject with a personal identity card and the subject's one.

The date of withdrawal is the same of the opening time.

It is possible to receive the results by mail in compliance with applicable legislation concerning privacy (Privacy – D. Lgs. N. 196/03 e s.m.i. e Regulation UE n. 2016/679)

The subject can ask for a copy of the results making a verbal request at the reception and the copy will be delivered in a maximum of 30 days.

AMBULATORY SURGERY (PC1)

For the execution of the ambulatory surgery services the reception is available from Monday to Friday, from 8:00 a.m. to 8:00 p.m and on Saturday from 8:00 a.m to 1 p.m. to set an appointment. When a child is concerned one of the parents is required.

The reception will immediately communicate the date and time available for the appointment. After the confirmation the reception will release a reminder with all the details about the date and time and with the possible information about the preparation of the medical service.

It is possible to book an appointment by telephone in the same days and times as above, by mail or by Facebook.

The average waiting time for an appointment is of 7 days (maximum).

In case of need it is possible to cancel an appointment, the patient will have to communicate it at least 48 hours before the scheduled date.

The results can be picked up the same day and in the same place of the execution of the medical examination or the surgical service, except for the cases of a removal. In that case an histologic exam will be required and the result will be available in 15 days maximum.

The results can be taken directly from the user in the facility, the user can also send someone else, with a proper authorisation, in compliance with applicable legislation concerning privacy and that will provide a mandate signed by the subject with a personal identity card and the subject's one.

The date of withdrawal is the same of the opening time.

It is possible to receive the results by mail in compliance with applicable legislation concerning privacy (Privacy – D. Lgs. N. 196/03 e s.m.i. e Regulation UE n. 2016/679)

The subject can ask for a copy of the results making a verbal request at the reception and the copy will be delivered in a maximum of 30 days.

GENERAL ANALYSIS LABORATORY

For the activity of the Analysis Laboratory it is possible to book only the house blood draw, for the other services the access it is not necessary to book. The blood draw are available from Monday to Sunday from 8:00 to 11:00, for the delivery of samples or for take a swab from Monday to Friday from 8:00 a.m. to 8 p.m. , on Saturday and Sunday from 8:00 a.m. to 1 p.m.

When a child is concerned one of the parents is required.

In case of need it is possible to cancel an appointment, the patient will have to comunicate it at least 48 hours before the scheduled date.

The laboratory results can be taken from 2 to 4 working days according to the type of analysis. Examination of patient in a therapy or urgent an be taken in the same day.

The results can be picked up the same day and in the same place of the execution of the medical examination or the surgical service, except for the cases of a removal. In that case an hystologic exam will be required and the result will be avalaible in 15 days maximum.

The results can be taken directly from the user in the facility, the user can also send someone else, with a proper authorisation, in compliance with applicable legislation concerning privacy and that will provide a mandate signed by the subject with a personal identity card and the subject's one.

The date of withdrawal is the same of the opening time.

It is possible to receive the results by mail in compliance with applicable legislation concerning privacy (Privacy – D. Lgs. N. 196/03 e s.m.i. e Regulation UE n. 2016/679).

The results made in service are downloaded by Analysis Laboratory “Sabina Medica” directly from the portal of the Biosystem Group Analysis once they have been validated and are delivered to the user in the day planned for the delivery.

The subject can ask for a copy of the results making a verbal request at the reception and the copy will be delivered in a maximum of 30 days.

3.1. Organisational structure

Chief of the facility is the Management of the Center, which defines the responsibilities, the authority and direct every activity.

Upstream of the sanitary services, there are:

- *Chief Medical Officer*
- *Responsible of Ambulatory Surgery service*
- *Responsible of Dentistry activity*
- *Technical Director of Analysis Laboratory*
- *Branch Responsibles*
- *Administrative Officer* (that oversees the administrative development)
- *Reception and public relation office* (helps users to take information about the services, how to get a service, on the fees, waiting list, on legislation, on the services net and on every activity of the center).

Names, qualifications and professional role of the carers are set on the Management Structure, that is regularly updated.

3.2. Organizational chart

In Sabina Medica there are specialized professional figures able to face most of the needs and pathologies of the present branches. Moreover, the professional and specialized update is continuous for the staff and it provides a very high standard of services inspired by quality principles, efficiency and management continuity, in respect of the patient rights.

The complete list of the professionals working for the various branches available in Sabina Medica is available for all the users. (**Attachment 1**).

3.3. Services

Complete lists of the following services provided by the structure are available for all the users:

- Agreement specialized services (**Attachment 2**)
- Private specialized services
 - Specialised medical branches
 - Dentistry
 - Outpatient surgery
- Private Diagnostic laboratory

Note: The complete list of the services, with the list of charges, in agreement and private, can be found at the reception desk.

Different services (except for the diagnostic laboratory) are available only upon advanced appointment that can be set with the reception following the directions in the paragraph about “booking – reception”.

3.5. Booking - Reception

BOOKING

Appointments can be booked at the reception, by telephone, by mail and by Facebook page. For the laboratory tests only the house service can be booked.

It is important to have the medical prescription for the exam, the vital data and a telephone number in order to communicate them to the staff that will inform the person about the date and hours of the appointment.

RECEPTION

Exams in agreement with the Regional Health System

The center will have an agreement with the Regional Health System for the exams. The medical prescription lasts one year from the date of issue and must contain the following information:

- Date of issue;
- Name and Surname;
- Health card and social security number;
- Possible rights to be exempted from paying the ticket for disease / pregnancy indicated by the attending physician;
- Required exams;
- Stamp and signature of the physician

It will be required to communicate:

- the date of birth,
- the residency
- a telephone number.

Private healthcare:

It is possible to book private services, paying the cost of the entire exam.

In this case, the prescription won't be required, but it is important to communicate:

- vital data
- social security number.

The charges are available at the reception.
